AEROMIC
PROJECT PROPOSAL

Slide 2: Solution Overview

(1 minute)

Content2
One-line summary of your solution (elevator pitch)
Key features or functionalities
How it solves the problem effectively

▶ Visuals:
Before vs. After comparison or illustrative diagrams

Key Message: Highlight how your solution bridges the gap.

Slide 3: Demo/Prototype
(2 minutes)

Content:

Live demo or recorded video of the solution
Key functionalities in action
Focus on user experience and ease of use

Visuals:

Screenshots, animations, or video clips
Key Message: Showcase your solution's
feasibility and functionality.

Slide 4: Technical Details (1 minute)

Content:
Technologies, tools, or frameworks used
Brief explanation of the architecture or workflow
Challenges faced and how they were resolved
Visuals:
Flowcharts, architecture diagrams, or tech stack icons
Key Message: Demonstrate the technical robustness of your solution.

Slide 5: Future Roadmap

(1 minute)

Content:
Next steps for the project
Features or improvements planned for future development
Thank mentors, organizers, and teammates
Visuals:
Timeline or roadmap for future plans
Team photo or sponsor logos
Key Message: Highlight sustainability and collaboration.

THANK YOU
